

Cruise to Gins Farm April 15th 2025

We were very lucky with the weather, one day later and some boats would have had difficulties with the wind and sea state. As it was, we had a light breeze and a slight chop which was perfect for the sailors whilst allowing the smallest boats to cruise at around 20 knots.

Some forty two members and eight boats made it. Anthony Blest caused a little ripple of concern as he was seen leaving Yarmouth single handed in his small sailing boat but had not arrived by the time the meal was served. He arrived at about 1400hrs and was helped with lines by three young boys who rowed to the pontoon and boarded one of the larger boats. *Tyrrick* ferried the crew of *Zingana* and David Temple, who was single handed on *Second Wind*, as it was the bosun's day off.

The Club has recovered from the disaster of being flooded and the lower floor is now immaculate.

There's always something strange going on at back of the room!

The food was excellent, so good in fact that the Chef was given a round of applause. This was complemented by the efficiency of the service which was quick and attentive.

We departed at around 1530hrs. in a slightly stronger breeze. The motorboats made good time, *Seas* was seen doing around 25kt. *Tyrrick* watched where the waves were breaking on the shoal and was able to cross in about six feet of water saving about a mile at the river entrance.

Our next trip is 13th. May to the Royal Victoria Y.C., closing date 5th.

David
